Everyone is invited to come contribute ideas at the Thread Lake Visioning Session hosted by the MSU Planning & Zoning Center and the Flint River Watershed Coalition.

This will be a fun, interactive event where all ideas are welcome—from “pie-in-the-sky” dreams to things more practical and immediate. Ice cream will be served.

Our team will take the thoughts and ideas generated from this session and the September 7th event to create alternative visions for Thread Lake and its surrounding neighborhoods.
